Attachments: Proposed Final EPA FOIA - DesRoches.pdf

Had a chat with David today at 10am. He remains interested in all communications where all parties to communications are internal-to-EPA but which are stem from communications between ided management officials and Monsanto, etc officials. So drafts etc. I said that the material was pre-decisional almost always and would have the effect of "snowballing" the request a huge amount. I suggested that he talk with his lawyer. He will.

Stay tuned.

Subject: Proposed final language

Hi Scott, I put together everything I could find based on the history of the requests and came up with the attached. Let me know if this is something we can work with.
